

EVR ROTACASTER

**Floor mounted dual axis machine
Mould sizes up to 1m diameter x 1.6m high
Mould weight up to 50kg (including material)**

Steel turntable for easy mould mounting

Adjustable turntable and counterweight for accurate balancing

Clear control panel operates main arm and turntable separately for speed and direction.

Timer may be set to run for up to 9 hours 59 seconds.

Square mesh cage with safety magnetic lock and cut-out switch for safe operation.

Complies with CE, safety and low voltage directives.

Powder-coated, tough steel body for industrial applications.

OPTIONAL FEATURES

Full HMI control with touch-screen.

Rock and roll adaption for long moulds that require the turntable to rotate in a horizontal position, but with a gentle rocking of the primary arm.
